

## Bob Norman's Sound Requirements

Bob's requirements are simple: A vocal/harmonica mike and a guitar mike. Bob performs standing, and boom mikes are best. Since he doesn't use fingerpicks, Bob depends on the soundperson to boost the guitar mike during fingerpicked numbers and bring it back down during flatpicked numbers. Bob can play his guitar into a direct box, but he prefers the acoustic sound. If a skilled soundperson can achieve a nice balance of both (with emphasis on the acoustic), it may be worth a try. Bob's son Sam often accompanies him on guitar. Sam needs only a guitar mike and can also plug in if necessary. Sam performs standing, to Bob's right. Bob needs a small, high table or stool to his left for harmonicas, water bottle, and other accessories. Monitors are very welcome!

### Stage Plot:

Sam:  
Guitar mike  
(Optional: Direct box)  
Monitor

Bob:  
Vocal/harmonica mike  
Guitar mike  
(Optional: Direct box)  
Monitor

High table or stool

Please:  
High-quality vocal mike  
All boom stands  
Reverb

Thank you!
